Secretary of the Commission
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

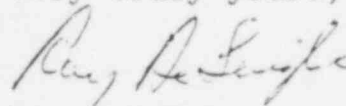

Dear Sir:

It has been brought to my attention that hearings are being scheduled on Georgia Power Company's request for a license to operate Plant Vogtle located in our County. It is my understanding that there is a possibility that these hearings will be held outside of the County and possibly as far away as Atlanta.

We would like to respectfully request that every possible consideration be given to holding these meetings in Burke County if there are adequate facilities available. We feel that our Citizens, who are the ones that will be most affected, should be given an opportunity to attend these hearings if they so desire and should not be required to travel a great distance in order to attend. If available facilities in the County are not sufficient for your needs, the next best solution for our citizens would be to hold the hearings in Augusta.

Thank you for your consideration of this matter.

Very truly yours,

Ray DeLaigle
Chairman
