ARTHUR E. LUNDVALL, JR.  
VICE PRESIDENT  
SUPPLY

February 9, 1984

Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

ATTENTION: Mr. James R. Miller, Chief  
Operating Reactors Branch #3

SUBJECT: Calvert Cliffs Nuclear Power Plant  
Unit Nos. 1 & 2, Docket Nos. 50-317 & 50-318  
Request for Exemption

REFERENCE: IE Information Notice 84-05; Exercise Frequency

Gentlemen:

It has come to our attention that the State of Maryland and affected Counties are planning to implement the guidance contained in the new FEMA rule concerning biennial emergency exercise frequency. As a result, full participation in the 1984 Calvert Cliffs exercise (CALVEX 84) currently scheduled for September 11, 1984, will be limited in that local and state government agencies will not be represented in the exercise.

IE Information Notice 84-05 recognizes that State and local governments may be planning for the transition from annual to biennial frequency under the FEMA rule and provides that licensees may only conform with the FEMA rule by specific request for exemption from the NRC requirement. Accordingly, we are forwarding a request for exemption from 10 CFR 50, Appendix E, section IV.F. 1. a. This request for exemption would only be applicable to the CALVEX 84 exercise.

Very truly yours,

AEL/TEF/LOW/wmc
