Director of Nuclear Reactor Regulation
Attention: Ms. E. Adensam, Chief
Licensing Branch No. 4
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Ms. Adensam:

In the Matter of
Tennessee Valley Authority

) Docket No. 50-327
) 50-328

By my April 15, 1983 letter to you, we provided a response to Supplement 1 to NUREG-0737 (Generic Letter 82-33) regarding the upgraded emergency operating procedures. As previously discussed with Carl Stahle of your staff, a procedure to utilize the RCS vents (Item II.B.1 of NUREG-0737) will be available before the new emergency operating instructions (EOIs) are implemented as stated in my April 15, 1983 letter. However, as discussed with Mr. Stahle, the RCS vent procedure is a part of the upgraded EOI procedures, and it will not be implemented until the complete set of EOIs is implemented.

If you have any questions concerning this matter, please get in touch with J. E. Wills at FTS 858-2683.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills

L. M. Mills, Manager
Nuclear Licensing
