Attention: Mr. B. J. Youngblood, Chief
Licensing Branch No. 1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Youngblood:

Reference: (1) Enrico Fermi Atomic Power Plant, Unit 2
NRC Docket No. 50-341

(2) Letter dated June 3, 1981 from C. M. Heidel
to Mr. L. L. Kintner

Subject: Staffing Levels of Radchem Section

Attachment D to Reference 2 provided information on proposed staffing levels of the Radchem section. This information was provided as a result of questions by the Licensee Qualification Audit Team. As operational staffing needs became more clearly defined, Detroit Edison has modified its plans for Radchem staffing. The structure of the Radchem organization is described in Section 13.1.4.3 and Figure 13.1-4 of the FSAR and supersedes the commitments in the referenced letter related to Radchem staffing.

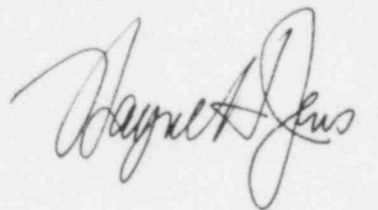

Future changes, if any, will be documented in the FSAR consistent with the level of detail normally provided there.

If there are any further questions, please contact Mr. O. Keener Earle, (313) 586-4211.

Sincerely,
