Midland Nuclear Plant  
3500 E. Miller Road  
Midland, Michigan 48640

Subject: Docket No. 50-329/330  
Midland Plant - Units 1 and 2  
Overview of the Construction  
Completion Program  
Serial No. SWMCP-004

Phase I and Phase II reviews of the Architectural FCR/FCNs have been completed and considered acceptable by CIO as meeting the requirements of FID-2.400 Rev. 3, Review and Resolution Program.

Sampling was performed on the MPQAD 100% verification of line 9 Phase I activity and of 100% MPQAD verifications of line 15 Phase II activity of the Generic Schedule for Resolving Stop Work Orders.

Sampling inspections were performed of controlled stick drawings at Stations 14, 48 a, b and d and 55. They were considered satisfactory and acceptable.

The Hold Point established by CIO for completion of Phase II activities in the Architectural discipline has been lifted.

This letter lifting the Hold Point, confirms my conversation with Mr. N. Riechel, CPCo, on December 13, 1983.

Very truly yours,

S. W. Baranow  
Program Manager

Midland Plant - Units 1 and 2  
Overview of the Construction  
Completion Program  
FCR/FCN Hold Point  
Serial No. SWMCP-017

CIO has completed a sampling review of Phase I and II of the following documents:

- FCR's/FCN's affecting Instrumentation and Control Documents
- FCR's/FCN's affecting Civil Documents

Results of the sampling were satisfactory. Therefore, Hold Point 011 has been released for Civil and Instrumentation and Control documents.

Re: FCR/FCN Review (Electrical)

CIO has completed a review of subject Electrical FCRs/FCNs identified as Phase I and Phase II of the program for resolving stop work orders and considers that the program is adequate and is being correctly implemented. This releases CIO Hold Point Number 011 for the electrical discipline.

During the review, six discrepant conditions were noted as reported on NIR Number 013.

The discrepant conditions noted were not significant enough to reject the total population of Electrical FCRs/FCNs but will require a response indicating the corrective/preventive actions.

Re: FCR/FCN Review  
CIO Hold Point No. 011

CIO has completed a review of FCR/FCN's for the mechanical discipline and considers the results of this review to be satisfactory.

This releases CIO Hold Point Number 011 in its entirety.
