Re: Limerick Generating Station Units 1 and 2
Docket Nos. 50-352-OL and 50-353-OL

Dear Judge Brenner:

This is to propose an alternative plan for the DES pre-hearing conference that might meet the objections of all concerned. I would like to suggest that the Board assess, on the afternoon of March 7, 1984 (or March 8, 1984), whether the structural analysis hearings would have to be continued the week of March 19, even if all days that week were used. If so, then the Board could schedule the DES pre-hearing conference for the 8th or 9th. I believe this schedule would be consistent with your concerns that the DES pre-hearing not be too late and that the structural hearings not be unnecessarily prolonged into the week of March 19. If the DES could not be discussed on the 8th or 9th, I would then have six days in the office in which to prepare a colleague for the discussion on the 19th.

I thank you for your consideration of this matter.

Sincerely,

Martha W. Bush
