Docket No. 50-508  
50-460 -1

Director of Nuclear Reactor Regulation  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: NUCLEAR PROJECT NO. 3  
GENERIC LETTER 83-40

The Supply Systems' earlier response to Generic Letter 83-40 dealt only with our Unit No. 2 and not Units 1 or 3. Since the generic letter requests a response even if we have no planned examinations during this period, we feel it is appropriate to notify you that the Supply System has no plans for Operator Licensing Examinations at either of our other two facilities during this period.

Should you have any questions or desire further clarification, please feel free to contact me.

Sincerely,

G.C. Sorensen  
Manager, Regulatory Programs
