Director of Nuclear Reactor Regulation  
Attention: Mr. B. J. Youngblood, Chief  
Licensing Branch No. 1  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Youngblood:

Reference: Enrico Fermi Atomic Power Plant, Unit 2  
NRC Docket No. 50-341

Subject: Defer Proof and Review Technical  
Specifications

Detroit Edison requests that the NRC defer the issuance of the Proof and Review version of the Fermi 2 Technical Specifications to allow the test data currently being generated to be incorporated. This would minimize the need to modify the specifications at a later date. Detroit Edison will advise the NRC when the process leading to issuance of the Proof and Review version can most efficiently begin.

Should you have any questions, please contact Mr. Larry E. Schuerman (313) 586-4207.

Sincerely,

cc: Mr. P. Byron  
Mr. M. D. Lynch
