Re: Georgia Power Company, et al.; Vogtle Electric Generating Plant,
Units 1 and 2; Docket Nos. 50-424-OL, 50-425-OL

Dear Sir:

By Petition dated January 26, 1984, this Office previously requested the grant of intervention in the captioned proceeding. The interests of this Office, which interests precipitated the filing of our Petition, are apparently beyond the present scope of this proceeding. With the understanding that the Atomic Safety and Licensing Board will be considering only issues related to safety and environmental impact, this will serve as your authority to withdraw our Petition in this matter.

Sincerely,

Deppish Kirkland, III
