ANO-2 Fuel Inspection Results

Gentlemen:

In accordance with the commitment in Section 4.2.1.1.10 of the ANO-2 FSAR, we provided you with the results of the first two ANO-2 fuel inspections in letters dated June 2, 1982 (2CAN058209) and March 30, 1983 (2CAN038307).

We have recently completed the final required fuel inspection at ANO-2. As committed in the ANO-2 FSAR, a report of the results of this inspection is to be submitted within 90 days of completion (approximately March 6, 1984). However, compilation of the final results is requiring more time than expected. Current plans are to transmit the report by March 30, 1984.

Very truly yours,

  
John R. Marshall  
Manager, Licensing
