SUBJECT: Application for Amendment of Operating License

Enclosed please find Omaha Public Power District's (OPPD) "Application for Amendment of Operating License" which seeks to amend the Fort Calhoun Station Unit No. 1 Technical Specifications. In accordance with GL 93-07 (Reference 2), OPPD is proposing administrative revisions to Specifications 5.5 and 5.8. Revisions unrelated to GL 93-07 are proposed for Specifications 2.5, 2.8, 2.11, 3.2 and 3.10.

Attachment A contains a markup of the Technical Specifications reflecting the requested changes. Attachment B provides the "Discussion, Justification and No Significant Hazards Consideration." OPPD requests 90 days from the date of issuance to implement these proposed changes.

These changes will result in a significant cost savings and have been classified as a cost beneficial licensing action (CBLA). If you have additional questions, or require further information, please do not hesitate to contact me or members of my staff.
