November 29, 1983

Docket No. 50-277

Mr. John F. Stolz, Chief
Operating Reactors Branch #4
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

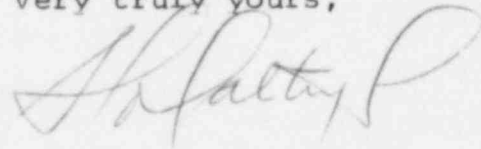

Dear Mr. Stolz:

This letter is to confirm the agreement made between W. M. Alden of the Philadelphia Electric Company and G. Gears and D. Dassallo of the NRC during a telephone conversation November 28 with respect to Unit 2 primary system pipe repairs and replacement.

The commitment was that, at least one month prior to the startup after the end of the next refueling outage, a justification for continued operation shall be submitted for NRC review and approval. It is our understanding that this commitment will be made a part of the orders for the impending restart of Unit 2.

If you have any questions or need any additional information, please contact us.

Very truly yours,

cc: A. R. Blough, Site Inspector
