Bethesda, Maryland 20814

Dear Bernie:

On November 3, a significant meeting was held at the Shoreham plant concerning the Failure Analysis, Inc. report on certain problems which have arisen with the diesel generating units. Suffolk County believes that it would be useful for transcripts to be made at meetings of this type. In other proceedings the NRC Staff has arranged for such transcripts. Accordingly, we would appreciate the Staff arranging for future significant meetings involving the diesel generator units to be transcribed.

Sincerely yours,

Herbert H. Brown
