Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

In the Matter of the)
Tennessee Valley Authority)

Docket Nos. 50-259
50-260
50-296

In accordance with the provisions of 10 CFR Parts 50.59 and 50.90, we are enclosing 40 copies of a requested amendment to licenses DPR-33, DPR-52, and DPR-68 to change the technical specifications of Browns Ferry Nuclear Plant units 1, 2, and 3 (enclosure 1). The enclosed specifications are updated figures of organization. Included are updates of figures 6.1-2 and 6.3-1 submitted by my letter to you dated May 13, 1982 (TVA BFNP TS 174). The enclosed figures supercede those submitted in the May 13 application. The enclosed specification changes are administrative in nature.

Description and safety evaluation of the changes are provided in enclosure 2. In accordance with 10 CFR 50.91(a)(1), the determination of no significant hazards consideration is provided (enclosure 3).

Appropriate Class II and Class I fees required by 10 CFR Part 170.22 totaling \$2,000 were forwarded with the May 13, 1982 application. Because the proposed specification revisions are updates of that request we have determined that additional fees are not required. Accordingly, none are being forwarded.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
