Attention: Mr. J. P. O'Reilly, Regional Administrator

Dear Mr. O'Reilly:

SUBJECT: Grand Gulf Nuclear Station  
Unit 1  
Docket No. 50-416  
License No. NPF-13  
File 0200/15525/15526  
I.E. Report 416/83-35 of  
July 17 - August 8, 1983  
AECM-83/0709

References: MAEC-83/0271, dated August 26, 1983  
AECM-83/0612, dated September 25, 1983

This letter is to extend the compliance date previously established in our response to Violation 416/83-35-01.

In that response a commitment date of November 14, 1983, was submitted as the date when full compliance would be achieved. This date was established on the basis of the number of inadequate safety evaluations to be supplemented or rewritten at that time. However, our examination of the issue has shown that there were more inadequate safety evaluations than had been anticipated. Accordingly, the compliance date should be changed from November 14, 1983 to December 30, 1983, in order to complete this additional work.

Yours truly,

JPM:lm
