Dear Mr. Denton:

In the Matter of the)	Docket Nos. 50-259
Tennessee Valley Authority)	50-260
		50-296

By letter from L. M. Mills to you dated April 15, 1983, we submitted our response to Generic Letter No. 82-33, regarding Supplement 1 to NUREG-0737, for the Browns Ferry Nuclear Plant. In item C of the April 15 enclosure, we committed to submit information addressing Regulatory Guide 1.97 by January 1, 1984. Because of anticipated problems with manpower availability during December 1983, we will not be able to submit our response at that time. We, therefore, request an extension of that submittal date to February 1, 1984.

This has been discussed with R. J. Clark, Browns Ferry Project Manager. If you have any questions, please get in touch with us through Mr. Clark.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
