Attention: Ms. E. G. Adensam, Chief
Licensing Branch No. 4

Re: McGuire Nuclear Station
Docket Nos. 50-369, 50-370

Dear Mr. Denton:

Proposed amendments are attached for Facility Operating Licenses NPF-9 and NPF-17 for McGuire Nuclear Station Units 1 and 2. These proposed amendments would involve changing the surveillance requirements for diesel fuel oil in Technical Specification 4.8.1.1.2. The proposed surveillance would be more effective in detecting unsatisfactory fuel oil while being simpler and less expensive to perform.

Attachment 1 shows the proposed amendments. Attachment 2 is a discussion of the justification and safety analysis. An analysis which concludes that the changes do not involve a significant hazards consideration is provided in Attachment 3. A report by Mr. Kurt H. Strauss, a petroleum fuels consultant, is provided as Attachment 4 in support of the justification and safety analysis. Attachment 5 describes Mr. Strauss' qualifications.

Implementation of the proposed amendments would involve substantial changes to procedures, training of personnel, and procurement of equipment. Therefore, we request that the proposed amendments be made effective approximately 3 months after issuance.

Although the proposed surveillance requirements are being requested only for McGuire Units 1 and 2, most of the changes are generically applicable; we request that the NRC staff consider making changes to the Standard Technical Specifications, where appropriate.

Pursuant to 10 CFR 170.22, Duke Power proposes that this application involves one Class III amendment and one Class I amendment. Accordingly, a check for \$4,400 is enclosed.

These proposed amendments have been reviewed and determined to have no adverse safety or environmental impact.

Very truly yours,

Hal B. Tucker

HAL B. TUCKER, being duly sworn, states that he is Vice President of Duke Power Company; that he is authorized on the part of said Company to sign and file with the Nuclear Regulatory Commission this revision to the McGuire Nuclear Station Technical Specifications, Appendix A to License Nos. NPF-9 and NPF-17; and that all statements and matters set forth therein are true and correct to the best of his knowledge.

Hal B. Tucker, Vice President

Subscribed and sworn to before me this 18th day of November, 1983.

Notary Public

My Commission Expires:
