The purpose of this letter is to document a telecon conducted between members of the Beaver Valley Power Station staff and members of the Nuclear Regulatory Commission staff on April 12, 1995. It was agreed that the proposed wording of Surveillance Requirement 4.6.2.2.d would be revised to delete the words "as specified in the Inservice Testing Program." Attached is the revised marked-up technical specification page which reflects this change.

If you have any questions regarding the attached information, please contact Mr. Nelson R. Tonet, Manager, Nuclear Safety, at (412) 393-5210.
