Marble Hill Nuclear Generating Station - Units 1 and 2
Byron Integrated Design Inspection Report

Dear Mr. Youngblood :

Public Service Company of Indiana, Inc. (PSI) has been asked to review the Byron Integrated Design Inspection (IDI) Report and to provide a response identifying the Byron/Braidwood concerns as they relate to Marble Hill's replication of the Byron plant. Commonwealth Edison Company has recently requested an extension of approximately one month to submit their response to the IDI report. In order to allow a comprehensive review of the Byron response prior to our response submittal, we request an extension from our original due date of January 17, 1984, to March 1, 1984.

If you have any questions regarding this matter, please contact me at your convenience.

Sincerely,

S. W. Shields
