Tennessee Valley Authority)	50-328

Please refer to a letter from D. S. Kammer to you dated August 22, 1983 which responded to Generic Letter 82-33 requirements concerning Regulatory Guide 1.97 implementation for the Sequoyah Nuclear Plant. The letter committed TVA to provide to you by December 1, 1983 a proposed Regulatory Guide 1.97 implementation date which would be based on the October 1, 1983 completion of the conceptual design. TVA has been unable to complete the conceptual design to date. We now expect to provide a Regulatory Guide 1.97 implementation date by February 15, 1984.

If you have any questions concerning this matter, please get in touch with R. H. Shell at FTS 858-2676.

Very truly yours,
