Docket No. 50-461

Mr. James G. Keppler
Regional Administrator, Region III
U. S. Nuclear Regulatory Commission
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Subject: Nonconformance Reports

Dear Mr. Keppler:

NRC IE Inspection Report Number 50-461/83-14 questioned the adequacy of the large proportion of Nonconformance Reports (NCR) dispositioned use-as-is. Concern centered around the cumulative effects of NCRs dispositioned use-as-is. Illinois Power Company has completed a study of this category of NCRs. The study concluded that adequate calculations were available to support the use-as-is dispositions. A report has been issued, and it is available for review by NRC inspection personnel.

Sincerely yours,

A handwritten signature in cursive script, appearing to read 'D. P. Hall'.
