OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Bockhold: Again, a word of caution, a word of, you know, we're trying to get our attorneys and that type of stuff and, but, tell them the truth. Okay. Be real careful with that. Don't speculate. Speculation's where you really get in trouble. You don't, you know, you start thinking it could be this and could be that. I know you've all heard my words before. But needless to say, I've been to too many of these already, okay, and especially the OI people, they will push you, try to push you all over the place.

Voice: They will badger you, they will really badger you.

Bockhold: They will badger you and try to push you all over the place. Be honest and don't speculate. If you don't know, just say "don't know", "don't remember", too bad. That's what you know or you remember.
