Re: Freedom of Information Act Request

Dear Mrs. Norry:

I hereby request, pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, as amended, that you provide me with copies of records as identified in the following paragraphs. As used herein, the term "records" means originals, and copies of originals when originals are not available, which are in the possession, custody, or control of the United States Nuclear Regulatory Commission, or any officer, director, agency or employee thereof, including, but not limited to, memoranda, notes, correspondence, agenda of meetings, minutes of meetings, outlines, studies, analyses, reports, diaries, transcripts, tapes, microfilm, and photographs as well as records sufficient to identify the time and place of oral communications.

I hereby request that you make available the following records:

1. All records that refer to, relate to, or reflect in any way, any investigation, inquiry or interviews concerning the sufficiency of independence of individuals implementing quality control and

quality assurance programs at Georgia Power Company's Alvin W. Vogtle Nuclear Plant Units Nos. 1 and 2 (also referred to as the Vogtle Electric Generating Plant), conducted at any time during the time period beginning April 1, 1983 and ending on the date of this letter. The Alvin W. Vogtle Plant is referenced in some Nuclear Regulatory Commission records as "Docket Nos. 50-424 and 5-425" and is located in Burke County, Georgia. Mr. R. H. Burch of the Nuclear Regulatory Commission's Office of Investigations may have the custody of, or know the location of, several of such records, including records which review the activities of the Site Resident Manager of Pullman Power Products Corporation, a contractor of Georgia Power Company conducting process piping erection work at the Alvin W. Vogtle Nuclear Plant, as such activities may affect the independence of workers involved in verification of acceptable workmanship and such records are included in this request.

2. Records which refer, analyze, or relate to information obtained during the investigations or inquiries or interviews identified in ¶ 1.
3. Records which refer to, relate to, or reflect the conclusions of any representative of the United States Nuclear Regulatory Commission with respect to information obtained in the investigations or inquiries identified in ¶ 1, including conclusions relating to termination or expansion of an investigation or inquiry.
4. All records relied upon in formulating the conclusions referred to in ¶ 3.
5. Records developed or obtained during or resulting from interviews of individuals conducted in the course of the investigations or inquiries or interviews identified in ¶ 1.

For each record referred to in the above requests which is alleged to be wholly or partially exempt from disclosure under the provisions of 5 U.S.C. § 552(b),

please identify all persons who have been advised of the contents of each such document; identify each document by indicating the title, if any, date prepared, by whom prepared, to whom sent, and the general nature of the contents; provide a statement indicating under which provision of 5 U.S.C. § 552(b) allegedly justifies the refusal to supply each document; and specify which portions of each document are being withheld.

If any requested document is no longer within the control of the United States Nuclear Regulatory Commission, please provide the undersigned with information as to where any such document is now located.

I am willing to pay the applicable charges for production of the requested records, in accordance with the Nuclear Regulatory Commission's regulations (10 C.F.R. Part 9).

Should any difficulties arise in interpreting or understanding any of the above-stated requests, the undersigned is available to discuss this request with you by telephone at any time. In the event of my unavailability, my colleague Alan E. Lubel, Esquire (telephone number 404-658-8063) can assist you in the same manner.

Very truly yours,

Arthur H. Dombey
