Dear Sir:

Reference: Letter, L. J. Papay (SCE) to J. B. Martin (NRC),
Response to Notice of Violation,
dated November 29, 1983

This letter is to confirm a telephone discussion on December 7, 1983, between our Mr. G. T. Gibson and Mr. J. Eckhardt of your staff, regarding an administrative error in the referenced letter. Page 4 of the enclosure to the referenced letter states "...all safe shutdown circuits are being reviewed to verify that the working raceway drawings accurately reflect the separation criteria and that all raceways identified as requiring exposure barriers are wrapped. This effort is scheduled to be completed by December 7, 1983." During the preparation of the referenced letter, the final schedule of this effort, received on November 28, 1983, was not incorporated into the letter due to administrative error. The correct date for completion of this effort is December 22, 1983.

If you require any additional information, please so advise.

Sincerely,

J. G. Haynes
