James Keppler  
Regional Administrator, Region III  
USNR Commission  
799 Roosevelt Road  
Glen Ellyn, IL 60137

Dear Mr. Keppler:

On November 7, 1983, the Cincinnati Gas and Electric Company permanently laid off without exit interviews approximately 300 document review staff from the Zimmer station. The CG&E Course of Action specifically promises exit interviews.

These exit interviews should be obtained for all these laid-off personnel, focused especially on any document review problems under Mr. Williams as project supervisor. These interviews should be made public.

We also want to know the implications of CG&E's lay-offs of these workers. Does this mean that the document review process since the shutdown is hereby negated? If the review implemented since the shutdown is in fact invalidated, the work that was reviewed must be reinspected.

Quality control at Zimmer must from here on be dealt with openly and honestly.

Sincerely,

Dr. Rick Anderson, Chairperson  
Miami Valley Power Project

Phil Amadon, Chairperson  
Coalition for Affordable, Safe Energy

Thomas Devine, Counsel  
MVPP

Bonnie K. Pence, Chairperson  
Miami Group, Sierra Club

Arn Bortz, Mayor  
City of Cincinnati
