

ATTN: Document Control Desk
US Nuclear Regulatory Commission
Washington, DC 20555-0001

9 March 2020

50-188

Subject: Request for Additional Information (Acc. # ML19128A342) Response Time Extension

To Whom It May Concern,

On June 5, 2019, the NRC sent a Request for Additional Information (RAI) to the Kansas State University (KSU) nuclear reactor facility (license R-88, docket 50-188) regarding a license amendment request (LAR) originally submitted on April 9, 2012 (Acc. # ML1219A063) to add up to four 12%-loaded fuel elements to the core. The facility is requesting an extension of response time to troubleshoot a recently discovered core modeling issue. An extension to 9 June 2020 is requested.

Administrative restrictions on operations remain in place. Advanced notification to the NRC will be provided if changes to the administrative restrictions are expected prior to completion of the LAR review.

I swear under penalty of perjury that the foregoing is true and correct.

Regards,

Alan T. Cebula
