Subject: Virgil C. Summer Nuclear Station  
Docket No. 50/395  
Operating License No. NPF-12  
Licensing Report Submittal for  
Spent Fuel Storage High  
Density Rerack

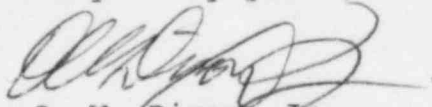

Dear Mr. Denton:

South Carolina Electric and Gas Company, acting for itself and as agent for the South Carolina Public Service Authority, hereby submits, for your review, 10 copies of the Virgil C. Summer Nuclear Station Draft Licensing Report on High Density Spent Fuel Storage Racks. Technical Specifications change requests will be forwarded upon successful review and approval by both the Plant Safety Review Committee (PSRC) and Nuclear Safety Review Committee (NSRC). This is expected to occur in early January 1984.

As discussed in our letter dated December 2, 1983, plans remain to completely remove the old racks beginning April 1, 1984 and have new racks fully installed and ready for use September 1, 1984.

Please advise us if questions arise.

Very truly yours,

O. W. Dixon, Jr.
