August 25, 1983.
- (3) G-83138, Madsen to Lee,  
Dated March 30, 1983.
- (4) P-83169, Brey to Kuzmycz,  
Dated May 28, 1983.

Dear Mr. Collins:

This letter is to propose changes to the electrical system requirements of the Fort St. Vrain Technical Specifications. The changes are proposed in response to References (1) through (3) as outlined in Reference (4). Efforts to increase the consistency between the overall electrical system requirements at Fort St. Vrain and those in the Standard Technical Specifications were also made in the development of the changes. The proposed changes are provided in Attachment 1.

-2-

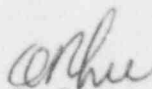

Attachment 2 and 3 are the safety analyses for the electrical system modifications and the proposed Technical Specification changes, respectively. These safety analyses provide justification for our determination that the proposed Technical Specification changes involve no significant hazards considerations.

In accordance with the provisions of 10 CFR 170, we believe that the proposed changes are Fee Class III since they are deemed to involve no significant hazards consideration.

A check in the amount of \$4,000.00 is enclosed for fee payment.

If you have any questions, please contact Mr. Don Warembourg at (303) 785-2224.

Very truly yours,

O. R. Lee  
Vice President  
Electric Production
