Docket No. 50-322
(Emergency Planning)

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

ADDITIONAL INSTRUCTIONS REGARDING INSERTION OF
REVISION 2 PAGES OF LOCAL OFFSITE RADIOLOGICAL
EMERGENCY RESPONSE PLAN - APPENDIX A

Dear Mr. Denton:

When inserting Revision 2 into Appendix A of the Shoreham Emergency Plan, simply substituting the Revision 2 pages for pages of the same page number from the earlier version of Appendix A leaves in the Plan approximately 70 additional pages which should be deleted. This problem has arisen because implicit page numbers for the zone maps for Zones A to S have been changed in Revision 2; this changes all related pagination.

To assemble a fully accurate version of Appendix A, the four-page guide included with Revision 2 and entitled "Appendix A, List of Effective Pages" should be used as the roadmap. All pages not accounted for on it should be removed. A summary of the pages to be removed from both Appendix A and its Addendum is attached to this letter. In assembling Appendix A, it should be noted that all Figures are given implicit page numbers, while Exhibits are not given any page numbers.

Review of Appendix A has also revealed two errata. The "List of Figures" on page (ii) contains incorrect page citations for Figures 8.1, 8.2 and 8.3. A corrected version of this page is attached. In addition, Figure 8.3 was unintentionally omitted

from the Revision 2 pages for Appendix A. This figure, which is identical to that already included in the Revision 2 package as Attachment 7 to OPIP 3.6.3, is also attached. Page 2 of the List of Effective Pages has been revised to reflect this addition and is attached.

Should you have any questions, please contact this office.

Very truly yours,

M. S. Pollock
Vice President - Nuclear
