MIDLAND ENERGY CENTER
FCN/FCR SOILS STOP WORK ORDERS
File: B1.1.7, 0460.3 UFI: 99*08, 73* Serial: CSM-0714

This is to advise you that the MPQAD Audit of Civil Stations 8, 10, 13, 24 and 64 has been completed and are now ready for the Stone and Webster final audit.

These stations represent the first of the two Civil packages that were described to you in my letter to Stone and Webster of last week. With the successful completion of your audit of these stations, it is our intent to lift the stop work on the soils activities and allow physical work in that area to resume.

Your cooperation in completing your audit functions will be appreciated. If you need any support for the Consumers or Bechtel organizations during your audit activities, please do not hesitate to make your needs known.

Dean L. Quamme
