Division of Licensing
Operating Reactors Branch No. 3
Washington, D.C. 20555

Reference: Docket No. 50-285

Dear Mr. Miller:

Spent Fuel Pool Reracking
at the Fort Calhoun Station

In a letter dated September 9, 1983, the Commission issued Amendment No. 75 to Facility Operating License No. DPR-40 for Omaha Public Power District's Fort Calhoun Station. This amendment to the license and Technical Specifications was requested as a part of the reracking of the spent fuel pool at the Fort Calhoun Station. A license condition was added to that amendment which required that the District notify the Commission in writing within two weeks after the event as to the following:

- (1) Installation date of the first new rack that contains Boraflex (completed November 19, 1983; notified the Commission by District letter LIC-83-295 dated November 23, 1983).
- (2) Installation date of the first new rack that does not contain Boraflex.
- (3) Installation date of the last new rack.
