ERRATA TO SAPL'S CONTENTIONS ON  
LOCAL RADIOLOGICAL EMERGENCY RESPONSE PLANS

The following correction should be made in the contentions filed by SAPL on September 9, 1983:

1. Insert the subheading: "Basis" after the first sentence of SAPL LP-22. The remaining portions of SAPL LP-22 as filed are adopted as the basis for that contention.

2. SAPL LP-11 should read as follows:

The plans are insufficient to provide reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency. Specifically the plans do not analyze or account for behavioral variations among members of the public in the event of a radiological emergency. Such considerations are required by 10 C.F.R. 50.47 (a)(1) as interpreted by NUREG-0654 App. 4 IV B. (p.4-10).

The basis for SAPL LP-11 remains as filed.
