Attention: Mr. Robert L. Baer, Chief
Light Water Reactor Project Branch No. 2

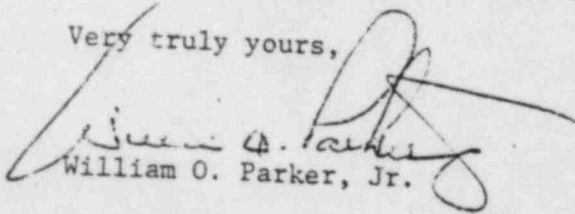

Re: McGuire Nuclear Station
Units 1 and 2
Docket Nos. 50-369 and -370

Dear Mr. Denton:

This letter is to advise you of a change in the projected McGuire fuel loading and commercial operation dates for McGuire Nuclear Station, Unit One. The theoretical earliest fuel loading date is July 2, 1979 with a probable scheduled fuel load date of October 1, 1979. The October 1, 1979 date would lead to commercial operation in January 1980. These changes were a result of a re-evaluation of the remaining construction activities and delays experienced in the commencement of hot functional testing. A more detailed explanation of the factors which led to this delay will be provided at a later date.

The schedule delay on Unit One will impact on the Unit Two schedule, however, the magnitude of this impact has not been fully assessed.

Very truly yours,

William O. Parker, Jr.
