APPLICANTS' RESPONSE TO JOINT INTERVENORS' REQUEST  
FOR PRODUCTION OF DOCUMENTS (CONTENTION VII)

Pursuant to 10 C.F.R. § 2.741(d), Applicants hereby respond to Joint Intervenor's Request for Production of Documents as contained in "Joint Intervenor's General Interrogatories and Interrogatories on Contention 7(VII) to Applicants Carolina Power & Light et al. (First Set)."

Certain of the documents requested by Joint Intervenor's contain confidential or proprietary information that Carolina Power & Light Company is under a legal obligation not to disclose to the public. Therefore, proprietary documents will be made available to Joint Intervenor's, if they desire to have their representative review such documents, after a protective agreement has been executed that ensures that the information obtained will not be disclosed to other individuals or entities or used for any purpose outside the context of the above-captioned proceeding. Subject to the

requirement of execution of a protective agreement prior to disclosure of proprietary information, the documents identified in "Applicants' Responses to Joint Intervenor's General Interrogatories and Interrogatories on Contention VII (First Set)" will be made available to Joint Intervenor's for inspection and copying in the following manner:

The requested documents that are located in Applicant's files and library at Carolina Power & Light Company's Engineering and Licensing sections in Raleigh, North Carolina will be made available at the corporate offices of Carolina Power & Light Company, 411 Fayetteville Street Mall, Raleigh, North Carolina, 27602. The documents will be made available during Carolina Power & Light Company business hours (or such other mutually agreeable time). Appointments to inspect the documents may be arranged by telephoning Ms. Edie McCrae, Legal Assistant, at (919)836-8162, at least 24 hours before the requested inspection.

The requested documents that are located in Applicants' files and library at the Harris Energy and Environmental Center and the Harris Plant site will be made available at the Energy and Environmental Center, Route 1, New Hill, North Carolina. The documents will be made available during the business hours of the Energy and Environmental Center (or another convenient time) and appointments can be arranged by contacting Ms. McCrae as set forth above.

Many of the documents requested by Joint Intervenor are located at the H. B. Robinson Plant site. These documents cannot be relocated because of logistical difficulties and, in some cases, because of regulatory requirements that such documentation remain at the plant site. Therefore those documents will be made available at the H. B. Robinson Plant site for Joint Intervenor's inspection at a mutually agreeable time. Appointments to inspect these documents must be made at least 72 hours before the requested inspection to allow plant personnel to make the necessary arrangements. Appointments for inspection of these documents may be arranged by telephoning Ms. Edie McCrae at the above number.

The requested documents will be made available to Joint Intervenor in the above-described manner for a reasonable period of time (i.e., through May 10), after which they will be returned to their place of origin. Inspection of documents contained on microfilm and reproduction of documents by Carolina Power & Light Company will proceed on a schedule compatible with other demands for the necessary equipment. A Carolina Power & Light Company employee will be available during the inspection in order to receive any

requests for copying. Copies of such documents will be furnished to Joint Intervenors upon payment of 7 cents per page for reproduction to meet Carolina Power & Light Company's cost of reproduction.

Respectfully submitted,

By: *Pamela H. Anderson*
