ELECTRICAL CIRCUIT BREAKERS WITH AN UNDERVOLTAGE
TRIP FEATURE IN USE IN SAFETY-RELATED APPLICATIONS
OTHER THAN THE REACTOR TRIP SYSTEM
(IE BULLETIN NO. 83-08)

Mr James G. Keppler, Regional Director
U.S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

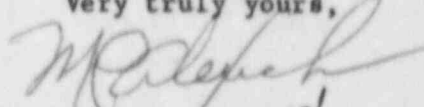

Dear Mr. Keppler:

This letter is in response to IE Bulletin No. 83-08, "Electrical Circuit Breakers with an Undervoltage Trip Feature in use in Safety-Related Applications other than the Reactor Trip System". Based on my staff's conversation with Mr. D. Boyd, a request to extend the response date to April 6, 1984 was granted.

Based on our review, we do not use the subject circuit breakers in safety-related applications other than the reactor trip system. Therefore, this letter constitutes a negative declaration to the Bulletin.

We do not have a system for tracking man-hours on specific bulletins; therefore, we are unable to respond to your request regarding staff time spent in responding to this Bulletin.

Very truly yours,

M. P. Alexich *MPA*
Vice President *4/6/84*
