ARTHUR E. LUNDVALL, JR.
VICE PRESIDENT
SUPPLY

U.S. Nuclear Regulatory Commission
Region I
631 Park Avenue
King of Prussia, PA 19406

ATTENTION: Mr. Thomas E. Murley, Regional Administrator

SUBJECT: Calvert Cliffs Nuclear Power Plant
Unit Nos. 1 & 2; Docket Nos. 50-317 & 50-318
IE Bulletin 83-08, Electrical Circuit Breakers with an Undervoltage Trip
Feature in use in Safety-Related Applications other than the Reactor Trip
System

Gentlemen:

This refers to IE Bulletin 83-08, which requested identification of any applications of Westinghouse type DB, DS or General Electric type AK-2 circuit breakers with undervoltage (UV) trip features, or any UV devices by other manufacturers that are used in safety-related equipment other than the Reactor Trip System (RTS).

We have reviewed our records for the concerns expressed in IEB 83-08. As a result of our review, we have determined that the types of UV mechanisms of concern in the Bulletin are not used in safety-related equipment (other than the RTS) at our facility.

Should you have further questions regarding this reply, we will be pleased to discuss them with you.

Very truly yours,

STATE OF MARYLAND :
:
CITY OF BALTIMORE :

TO WIT:

Arthur E. Lundvall, Jr., being duly sworn states that he is Vice President of the Baltimore Gas and Electric Company, a corporation of the State of Maryland; that he provides the foregoing response for the purposes therein set forth; that the statements made are true and correct to the best of his knowledge, information, and belief; and that he was authorized to provide the response on behalf of said Corporation.

WITNESS my Hand and Notarial Seal:

Notary Public
