Subject: [External_Sender] New Mexico as a storing place for Nuclear Waste

This is a terrible idea and we in New Mexico are totally against our state becoming a dumping ground for this deadly waste product. Especially burying this waste close to Carlsbad is incredibly unconscionable and does not take the marvels of the Caverns into consideration.

Personally, I would like the state of New Mexico to not accept ANY More Nuclear waste and maintain the clean environment we now enjoy. This might be one of the last bastion of pristine lands in the US and it needs to stay that way!

Sincerely,
Linda Hall
Resident of New Mexico
