Docket No. 50-293
License No. DPR-35

Pursuant to our conversation of May 9, 1995, Boston Edison hereby commits to furnish an inservice inspection plan of the core shroud modification based on the BWR VIP recommendations by November 9, 1995. In addition by August 9, 1995, Boston Edison will provide further information supporting the use of XM-19 material or if additional information is required, submit a plan to conduct further stress corrosion testing of the material.
