Submittal of a Revision to the Physical Security Plan
Issue 2, Rev. 4, May, 1995

Dear Sir:

This letter submits, in accordance with 10CFR 50.4(b)(4)(iii), four (4) controlled copies of the revised Limerick Generating Station (LGS) Physical Security Plan. The revisions are detailed in the summary of the Plan revisions.

This revision is being submitted in accordance with 10CFR 50.54(p)(2), and has been determined not to decrease the effectiveness of the LGS Physical Security Plan or Plant Security Personnel Training and Qualification Plan. The changes to the Physical Security Plan reflect changes associated with the issuance process for plant procedures, elimination of redundancy in listing contingency equipment, clarifying badge issuance instructions, elimination of special "Spray Pond" badges, removal of references to door A-182 and revision to the security console interface description to add a new console.

In accordance with 10CFR 73.21, we request that the enclosed revisions to the LGS Physical Security Plan, which contain Safeguards Information, be withheld from public disclosure and protected as described in 10CFR 73.21. This revision to the Physical Security Plan is numbered May 1995, Issue 2, Rev. 4.

Very truly yours,
