EVENT DESCRIPTION AND PROBABLE CONSEQUENCES 10																																																																																																																																																																																																																																																																																																																																																																																																																																																							
02   At 1327 on 12/21/82, during the performance of FNP-1-STP-80.1 (Diesel Generator 1B																																																																																																																																																																																																																																																																																																																																																																																																																																																							
03   Operability Test), Diesel Generator 1B was declared inoperable when it failed to																																																																																																																																																																																																																																																																																																																																																																																																																																																							
04   start. Tech. Spec. 3.8.1.1, in part, requires DG 1B to be operable. Tech. Spec.																																																																																																																																																																																																																																																																																																																																																																																																																																																							
05   3.8.1.1 action statement requirements were met. Health/safety of the public was not																																																																																																																																																																																																																																																																																																																																																																																																																																																							
06   affected. This is the first failure in the last 100 valid tests.

CAUSE DESCRIPTION AND CORRECTIVE ACTIONS 27																																																																																																																																																																																																																																																																																																																																																																																																																																																							
10   This event was due to fouling of the air-start valves by a lint-like substance. The																																																																																																																																																																																																																																																																																																																																																																																																																																																							
11   source of the substance could not be determined. The air start valves were cleaned																																																																																																																																																																																																																																																																																																																																																																																																																																																							
12   and following a satisfactory start, Diesel Generator 1B was declared operable at																																																																																																																																																																																																																																																																																																																																																																																																																																																							
13   2027 on 12/21/82.
