Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station

Docket No. 50-416
License No. NPF-13
File 0260/L-860.0
Withdrawal of Proposed Changes
to Grand Gulf Technical
Specifications
AECM-84/0238

The Mississippi Power & Light Company (MP&L) letter, AECM-83/0449, dated August 9, 1983, transmitted certain proposed changes to the Grand Gulf Nuclear Station Technical Specifications.

As a result of the Grand Gulf Nuclear Station Technical Specification Review Program, we have identified further changes and corrections to the requested changes that must be made. Therefore, this letter requests withdrawal of Item 2 of AECM-83/0449 from further NRC review.

The changes necessary in Item 2 have also been evaluated as part of our review program. It has been determined that these changes are not necessary to safe plant operations involved in restart or in plant operations exceeding 5% of rated power.

The proposed changes are being revised and will be formally resubmitted consistent with our schedule for submittal of other changes resulting from the review program.

Yours truly,

for
L. F. Dale
