Gentlemen:

In the Matter of)	Docket Nos. 50-327
Tennessee Valley Authority)	50-328

SEQUOYAH NUCLEAR PLANT (SQN) - UPDATED FINAL SAFETY ANALYSIS REPORT
(UFSAR), AMENDMENT 11 AND 10 CFR 50.59 REPORT

Reference: TVA letter to NRC dated November 16, 1992, "Sequoyah Nuclear
Plant (SQN) - New Frequency for Submitting Final Safety
Analysis Report (FSAR) Updates and 10 CFR 50.59 Reports"

As required by 10 CFR 50.71(e), TVA is providing you ten copies of
Amendment 11 of the SQN UFSAR. This amendment is intended to reflect the
as-constructed condition of the plant between October 15, 1993 and
November 16, 1994. The changes reflected by Amendment 11 are the result
of modifications to the facility, procedure changes, and other
administrative changes.

As required by 10 CFR 50.59(b)(2), one copy of the SQN 10 CFR 50.59 report
is also provided. This report contains summaries of the safety
evaluations performed for the period of January 1, 1994 to November 16,
1994.

As noted in the referenced letter, TVA originally planned to submit the
Amendment 10 UFSAR and 10 CFR 50.59 report for SQN within six months
following the end of the Unit 2 Cycle 6 refueling outage (initially
scheduled to begin September 17, 1993, and end November 20, 1993).
Following the change in schedule for SQN's Unit 2 Cycle 6 refueling outage
(extended to begin July 4, 1994), TVA submitted Amendment 10 in April 1994
to comply with the 24-month reporting frequency. TVA is submitting
Amendment 11 at this time to reestablish the baseline reporting frequency
of within six months following the end of SQN's Unit 2 refueling outages.

I certify that I am a duly authorized officer of TVA and that, to the best of my knowledge and belief, the information contained herein accurately presents changes made since the previous submittal up to six months before this submittal date, necessary to reflect information and analyses submitted to the Commission or prepared pursuant to Commission requirement.

Please direct questions concerning this issue to D. V. Goodin at
(615) 843-7734.

Sincerely,

R. J. Adney
Site Vice President
