Docket No. 50-293

NUREG 0737 ITEM II.B.3
Post Accident Sampling

Reference: (a) BECo Letter to USNRC dated September 14, 1982
(b) BECo Letter to USNRC dated June 9, 1982

Dear Sir:

Mr. Eccleston of your staff has recently contacted us to obtain confirmation that we will complete the subject NUREG item in accordance with the schedule which we provided to you in references (a) and (b).

The purpose of this letter is to inform you that we shall require additional time to complete item II.B.3 of NUREG 0737. As we discussed in a telecon with Mr. Eccleston we plan to complete this item by June 1, 1984.

The change in schedule is required due to the revisions made to our design packages, the utilization of a newly selected construction contractor and integrated scheduling constraints.

We trust that this revised schedule is acceptable, however, should you have any questions or require any additional information please contact us.

Very truly yours,

John F. Ballentine
for WDH
