Millstone Nuclear Power Station, Unit No. 2  
Schedule for Submitting a Response to the Request for Additional  
Information Concerning the Individual Plant Examination (IPE)

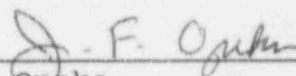

In a letter dated April 14, 1995,<sup>(1)</sup> the NRC Staff provided a Request for Additional Information (RAI) concerning the Millstone Unit No. 2 Individual Plant Examination (IPE). The RAI consists of forty (40) questions, many of which have several parts. Due to the large number of questions and complex nature of the RAI, the NRC requested a schedule for submitting a written response to the RAI. The purpose of this letter is to provide that schedule.

Based on a review of the NRC RAI and subsequent telephone discussions with the NRC Staff, Northeast Nuclear Energy Company commits to submit a written response to the RAI, related to the Millstone Unit No. 2 IPE, by August 31, 1995.

If there are any questions regarding this schedule, please contact Mr. Mario Robles of Nuclear Licensing at (203) 440-2073.

Very truly yours,

NORTHEAST NUCLEAR ENERGY COMPANY
