NOTICE OF FILING APPLICATION**PROPOSED REVENUE INCREASE DUE TO 1995 DEMAND-SIDE
MANAGEMENT EARNINGS CLAIM**

Application No. 95-04-038

We have previously been authorized to earn incentives on our energy efficiency programs. We filed an application to claim \$7.2 million in earned incentives. If approved by the CPUC, this amount, plus interest, will be collected in four installments over a ten-year period, with \$1.8 million collected in 1996.

HOW THIS PROPOSAL MIGHT AFFECT CUSTOMER RATES

The rate change for each customer class resulting from this proposal will be determined in another proceeding, known as Edison's Energy Cost Adjustment Clause (ECAC). In the ECAC, requests for all revenue changes, both increases and decreases, from various proceedings are consolidated. If the CPUC were to allocate the revenue increase discussed above on a system-average percentage-change basis, the following changes would result:

<u>Customer Classes</u>	<u>Proposed Revenue Change</u>	
	<u>(\$ Million)</u>	<u>(%)</u>
Domestic (Residential)	0.6	0.02
Lighting - Small and Medium Power	0.7	0.02
Large Power	0.4	0.02
Agricultural and Pumping	0.1	0.02
Street and Area Lighting	<u>0.0*</u>	0.01
TOTAL	1.8	0.02

* Represents a proposed revenue change of less than \$0.1 million.

THE CPUC WELCOMES YOUR PARTICIPATION AND COMMENTS

The CPUC will conduct an evidentiary hearing on this matter at the CPUC's Hearing Room at 505 Van Ness Avenue, San Francisco, California. A hearing date has not yet been scheduled. This proceeding is officially referred to as Application No. 95-04-038.

At the hearings, Edison representatives, interested parties, and the CPUC's Division of Ratepayer Advocates (DRA) will present testimony. DRA engineers, accountants, economists, attorneys, and other professionals independently evaluate utility rate increase proposals and present their analyses and recommendations to the CPUC at evidentiary hearings. The rates approved may differ from those Edison has requested.

If you need advice on how to participate or wish to make comments to the CPUC, please write to:
