Re: Docket No. 50-62
TAC NO. M82825

Dear Mr. Adams:

We are in receipt of your letter dated May 8, 1995 requesting additional information regarding proposed changes to our Operating License R-66. All HEU fuel elements have been removed from the facility, therefore, condition II.B.(4) can be deleted from License R-66. Please note that we still possess some HEU in the form of Fission chambers, flux foils, etc. and condition II.B(2) allowing up to 1 Kilogram in these forms should remain in the license.

Sincerely,

R.U. Mulder, Director
U.VA. Reactor Facility
