Re: In re: Public Service Electric and Gas Company  
(Hope Creek Generating Station)  
Docket No. 50-354-OL

Dear Chairman Miller:

I have just received a copy of the applicant's Motion to Dismiss dated April 12, 1984. On the first page, the applicant states that the Atomic Safety and Licensing Board dismissed contention four by an order dated February 21, 1984. We have searched our files and have no record of ever have receiving this order. Likewise, I would note, we did not receive a copy of the Board's order of December 22, 1983 which memorialized the rulings made from the bench on November 22 at the special prehearing conference in Salem, New Jersey. (We were able to receive a copy of the order from another party with no difficulty.)

My purpose in writing is to ask if your service list contains this name and address for the receipt of all Board orders. Also, we would be most grateful to receive a copy of the order of February 21, 1984.

Thank you very much for your kind attention to this matter.
