Chemical Cleaning of Steam Generators

Dear Sir:

On January 31, 1983, a letter, signed by W. Greenaway, was sent to you which inadvertently referred to you as a participant in GPU's February 10, 1983 meeting to evaluate chemical cleaning of TMI-1's steam generators. The letter enclosed preliminary information and raw data from our test program to allow meeting participants to familiarize themselves with work to date. This package should have been sent to you for information only, as an NRC observer of the meeting, not as a participant. We hope that no confusion has resulted from the erroneous cover letter.

Sincerely,

J. S. Wetmore
Manager, PWR Licensing
