Dear Ms. Adensam:

In the Matter of) Docket Nos. 50-327
Tennessee Valley Authority) 50-328

In accordance with 10 CFR Part 50.90, we are enclosing 40 copies of a requested amendment to the operating licenses, DPR-77 and DPR-79, to change the Sequoyah Nuclear Plant units 1 and 2 technical specifications (T/S). The proposed changes are provided in Enclosure 1. These changes result from the revised reporting requirements specified in 10 CFR 50.73 which became effective January 1, 1984. The justification for the proposed T/S changes are provided in Enclosure 2.

In accordance with the provisions of 10 CFR Part 170.22, we have determined the proposed amendment to be Class II for unit 1 and Class I for unit 2. However, as specified in the December 19, 1983 from D. G. Eisenhower letter to "All Licensees . . .," because the change to the T/S is administrative in nature to clarify the reporting requirements, no fees are required for this requested amendment.

This requested amendment has been evaluated pursuant to 10 CFR 50.92 and as stated in Enclosure 2, no significant hazards considerations are involved.

If you have any questions concerning this matter, please get in touch with Jerry Wills at FTS 858-2683.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
