License No. NPF-13
File: 0260/L-860.0/M-018.0
GCNS Update Report on TDI Standby
Diesel Generators
AECM-84/0240

Mississippi Power & Light Company (MP&L) is providing this submittal to update the information contained in our previous Standby Diesel Generator report, serial AECM-84/0103, dated February 20, 1984. The enclosed updated report, dated April, 1984, contains supplemental information related to recent NRC questions as well as the results of further evaluations and testing which have been recently completed. Revised sections of the original report are appropriately marked for convenience of review.

The intensive effort put forth to date by MP&L to address both Grand Gulf Nuclear Station and industry TDI diesel generator reliability issues demonstrates our commitment to satisfactorily resolve these issues. This information is provided in support of the resolution of the TDI diesel generator issues. Your cooperation in this matter is appreciated.

If you have any questions please contact this office.

Yours truly,
